Education

Pune Institute of Computer Technology (PICT), Pune **2024–2028**
B.E. in Electronics and Computer Technology CGPA: 8.83/10

Yashwantrao Mohite College, Pune HSC (Class XII): 87.33%

New English Medium School SSC (Class X): 90.80%

Technical Skills

Programming Languages: C++, Java, Python, SQL

Backend Technologies: Node.js, Express.js, REST APIs, JWT Authentication

Databases and Libraries: PostgreSQL, MySQL, pg

Cloud Computing: AWS, Cloud Computing Fundamentals

Cybersecurity: Network Security, Cryptography, TLS/SSL, Encryption, Digital Signatures

Core Subjects: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Experience

Universal Human Values (UHV) Head – ECE Department *PICT*

- Coordinated student engagement activities and departmental initiatives promoting Universal Human Values.

Class Representative *PICT*

- Acted as a communication link between classmates and faculty, helping coordinate class activities and academic announcements.

Management Team – INC *PICT*

- Supported team coordination and the planning and execution of organizational activities.

Projects

Bunk Buddy – Smart Attendance Optimizer *Backend Development*
Node.js, Express.js, PostgreSQL, pg, JWT, REST APIs

- Built an attendance-planning application that recommends classes to skip while meeting user-defined attendance targets.
- Developed REST APIs for attendance records, timetables, and academic calendars using Node.js, Express.js, and PostgreSQL.
- Implemented rule-based forecasting to simulate future attendance and generate personalized recommendations.

AI Classroom Assistant *Academic Project*
Python, Whisper, NLP, Speech Recognition

- Built a Whisper-based lecture transcription workflow to convert recorded lectures into text.
- Generated concise summaries, revision notes, and flashcards to help students catch up on missed classes.
- Applied audio preprocessing and chunking techniques to handle lengthy lecture recordings and improve transcription workflow reliability.
- Designed the workflow to convert recorded classroom content into structured, easy-to-review learning materials for students who miss lectures.

Achievements

- Achieved a 3-Star rating on CodeChef and earned the Pupil rank on Codeforces.
- Solved 1000+ algorithmic problems across programming and interview-practice platforms.
- Secured 1st Prize at Avishkar AlgoBid for algorithmic problem-solving.
- Ranked among the Top 5 Teams at HACK-O-BIT, a national-level hackathon supported by the Google Developer Community.
- Represented the college in inter-college volleyball and basketball competitions.
